

BARDO

II PART

RETREAT GUIDED BY
RIGDZIN NAMKHA GYATSO RINPOCHE
IN TRAKAI, LITHUANIA.
2011 JUNE 20-29

In the first part of the Teachings during the first Bardo retreat in 2010, Namkha Rinpoche gave very detailed explanations of the Bardo of Dying and Bardo of Dharmata as presented in the text of Bardo teachings written by Minling Lochen Dharmashri, which addresses aspects of the Bardo related to the highest teachings of Dzogchen. It is the rarest text on the subject of Bardo to be taught or commented in the West.

Today we are exceptionally fortunate to have this rarest opportunity for the Western audience to hear the next part of this precious Teaching in very detail from Rigdzin Namkha Gyatso Rinpoche, one of the major holders of the Nyingma tradition and lineage of Dudjom Rinpoche.

Teachings will be translated simultaneously into English and Lithuanian. Equipment for translation to French and Spanish will be available.

Please, consider a possibility to bring your own sitting pillow and a mat - there may be a shortage of those due to a large number of participants.

MEETING POINT

2011, June the 20th, Monday at 16 PM, in the village of Jovariskes, 2km past Trakai, Lithuania For more information about place and how to reach it please visit www.rigdzin.lt/bardo_en
